# The Illinois Gaming Board

The Riverboat Gambling Act was enacted in February 1990, making Illinois the second State in the nation to legalize riverboat gambling. The Act established the Illinois Gaming Board (IGB or Board) and authorized it to grant up to ten casino licenses. On September 11, 1991, the first riverboat casino began operation in Alton. Currently all ten licenses are active. In 2009 the Legislature passed the Video Gaming Act, which established video gaming in Illinois under the jurisdiction of the Board. To view a copy of either Act and the Board's Adopted Rules, visit the Board's website at [www.igb.illinois.gov](http://www.igb.illinois.gov).

The Board consists of five members appointed by the Governor and confirmed by the Senate. The Board administers regulatory, law enforcement and tax collection responsibilities for casino and video gambling in Illinois.

The Board's staff conducts audit, legal, enforcement, investigative, operational and financial analysis activities to ensure the integrity of riverboat and video gambling in Illinois as mandated by the Acts. The Board licenses gaming operations and personnel associated with riverboat and video gambling based on background and financial investigation conducted by the Board's staff.

The Board's staff includes approximately 256 agency employees, including a detail of 97 Illinois State Police employees. Individuals may not be employed by the Board if their spouse, parent or child is an official of, or has a financial interest in or a financial relationship with, any entity or individual engaged in gambling operations in Illinois.

# Background Information on Riverboat Casino Gambling

Each riverboat gaming operation (casino) is authorized to offer up to 1,200 gaming positions, consisting of a mix of electronic gaming devices and table games. In 1999, the Act was amended to permit all casinos to permanently moor at docksites, without conducting cruises on any waterway. Patrons must be 21 years of age to be admitted to the gambling areas of each casino. All wagering in the casinos must be cashless. The Act imposes two taxes on casinos: Casino Admissions Tax and Casino Privilege or Wagering Tax.

Effective August 23, 2005, the Legislature set the admissions tax at \$2 per person for patrons of Jumer's Casino Rock Island. For all other casinos the admissions tax is set at \$3 per person. Revenues from the casino admissions tax are deposited into the State Gaming Fund, a special fund in the state treasury. From each admission, \$1 goes to the host community where a casino is located and the remainder is distributed from the State Gaming Fund in the same manner as revenues collected from the wagering tax (see below).

The privilege or wagering tax is collected as a percentage of receipts from gaming play and are deposited into the State Gaming Fund. They are computed as a percentage of Adjusted Gross Receipts (AGR), defined as gross receipts less winnings paid to bettors. The majority of revenues in the State Gaming Fund are transferred to the Education Assistance Fund, a general fund that can be used for any purpose relating to public education. Five percent of the AGR from each casino is distributed to the hosting local government. Monies deposited into the State Gaming Fund also are used to fund the Gaming Board's administrative and operational expenses. The General Assembly also provided that 2% of total AGR from the 10th Riverboat gaming license (Rivers Casino in Des Plaines) is designated to the Cook County criminal justice system.

Since the passage of the Riverboat Gambling Act, the Legislature has amended the wagering tax from a flat 20 percent to a graduated rate. Effective July 1, 2005 the wagering tax is as follows:

- ◆ 15% of AGR up to and including \$25 million;
- ◆ 22.5% of AGR in excess of \$25 million but not exceeding \$50 million;
- ◆ 27.5% of AGR in excess of \$50 million but not exceeding \$75 million;
- ◆ 32.5% of AGR in excess of \$75 million but not exceeding \$100 million;
- ◆ 37.5% of AGR in excess of \$100 million but not exceeding \$150 million;
- ◆ 45% of AGR in excess of \$150 but not exceeding \$200 million;
- ◆ 50% of AGR in excess of \$200 million.

# Background Information on Video Gaming

The Video Gaming Act authorizes the installation of up to five licensed video gaming terminals (VGTs) in licensed establishments where liquor is served for consumption on the premises, as well as in licensed fraternal establishments, licensed veterans establishments and licensed truck stops. All licenses are issued by the IGB, and the holding of a valid liquor license does not, in itself, guarantee qualification for a video gaming license. Under the Video Gaming Act, a licensed truck stop does not need to have a liquor license to participate in video gaming but must sit on at least three acres of land with a convenience store, have separate diesel islands for fueling commercial vehicles, sell over 10,000 gallons of diesel or biodiesel fuel a month and have parking spaces for commercial motor vehicles. In order to determine how much money is wagered and won, and to ensure the integrity of video gaming, all licensed VGTs are monitored by the IGB through a Central Communications System (CCS). The CCS provides real-time communication with and control over every licensed VGT in Illinois. The CCS was constructed and is being maintained by Scientific Games International.

Net terminal income (NTI) is defined as the money put into a VGT minus the credits paid to the player. The State receives 30 percent of the NTI generated from each licensed VGT. Of the state's portion, five percent goes to the local municipality where the licensed VGT operates. Of the remaining 70 percent of NTI, Scientific Games receives 0.7275 percent as compensation for building and maintaining the CCS. The remaining income is divided equally (by law, an even 50/50 split) between the terminal operator (who owns/leases and places the VGTs in locations) and the licensed locations.

The Video Gaming Act gives local communities and counties the option to pass an ordinance to opt out of video gaming. Even though a specific ordinance permitting video gaming is not required, by the end of 2016, a total of 1,001 communities and counties enacted ordinances that specifically allow video gaming. The IGB knows of 144 additional communities whose ordinances prohibit gambling – either specifically passed in response to the Video Gaming Act or an ordinance that was in effect prior to the Act.

# Year in Review 2016

## Casino Social Investment

The Board has acted as a strong advocate on behalf of increased participation by minorities and women in the gaming industry. Specifically, in connection with the license approval and renewal process, the Board now reviews the efforts of all owner licensees in hiring minority and women employees, providing opportunities for employee training and promotion, establishing outreach efforts towards women and minority contractors, and making charitable contributions to community organizations (both in terms of funds and volunteer hours).

With encouragement of the Board, supplier diversity networking fairs have been established throughout the State, with most of the state's casinos serving as hosts. During 2016, two major diversity networking events took place. On April 21 and 22, the Annual Chicago Minority Business Opportunity Fair, organized by the Chicago Minority Business Development Council, was held at Hyatt Regency in downtown Chicago. The Illinois Casino Gaming Association, an umbrella trade group of Illinois casinos, sponsored and participated in the fair for the ninth year in a row and hosted a booth. On August 23 and 24, the Illinois State Black Chamber of Commerce hosted a convention at the Peoria Par-A-Dice Casino in conjunction with the National Black Chamber of Commerce. The ICGA is a member of the Black Chamber of Commerce, and participates in presentations, seminars, and by hosting an informational table.

Purchasing agents from each of the Illinois casinos were present at these events, as well as many local government officials and members of the community, making them invaluable forums for minority vendors seeking new business opportunities in gaming. Representatives of the Illinois Gaming Board also attended.

On November 3, 2016 the Board issued a disciplinary complaint and a \$10,000 fine against Bally Gaming Inc., for shipping media within electronic gaming devices to a casino licensee rather than separately to the IGB as required. ## Casino Self-Exclusion Program for Problem Gamblers

In 2002, the Board implemented a voluntary self-exclusion program for problem gamblers. The program was created to help compulsive gamblers regain control of their lives by giving those persons the ability to ban themselves from Illinois casinos. The Board maintains a confidential database that contains identifying information about each person who enrolls in the program. Key information is shared with the State's casinos to ensure that those who have self-excluded cannot cash checks or obtain credit at an Illinois casino. In addition, the State's casinos are prohibited from sending marketing material to persons on the Board's Self-Exclusion List.

At the time of enrollment in the program, a Self-Excluded person agrees not to enter or gamble in any casino in Illinois. A Self-Excluded person also agrees to donate all chips, tokens and vouchers in his or her possession to one of three Department of Human Services (DHS) designated agencies if they are caught returning to an Illinois casino. Those organizations include: The Illinois Council on Problem Gambling, the Illinois Institute for Addiction Recovery and the Outreach Foundation for Problem and Compulsive Gamblers. By the end of 2016, persons who enrolled in the Program and subsequently returned to Illinois casinos had donated approximately \$1,882,024.20 in gambling proceeds to the three DHS designated organizations.

There has been a steady increase in the number of enrollees since the program was implemented. Those wishing to enroll in the program must fill out the required application forms available at twenty-two locations in Illinois and six in Iowa. A complete listing of enrollment sites can be found on the Board's website or by calling 1-877-YOU-QUIT or (312) 814-8832. In 2016, a total of 613 persons enrolled in the Self-Exclusion Program bringing the total enrollment to 12,344 at the end of the year.

During 2016 staff and Chairman Tracy also studied how to bring a Self-Exclusion style program to the state's video gaming industry. The challenges in implementing such a program within video gambling are complex and difficult due to the wide geographical area involved and limited technology. The Board hopes to introduce and adopt a Rule in 2017 setting up the framework for a video gaming self-exclusion program.

## 2016 Casino Revenues and Admissions

The total AGR from all riverboat casinos for 2016 amounted to \$1.414 billion, a decrease of 1.7 percent from the \$1.439 billion AGR in 2015. Admissions in 2016 were 12,344,698, a 4.5 percent decrease from the 12,929,868 admissions in 2015. In 2016, the State Gaming Fund collected a total of \$477,992,636 in wagering and admission taxes. The State share of taxes collected was \$394,926,351 a decrease of 2.0 percent from the State share of taxes collected in 2015. The remaining \$83,066,285 was paid to host communities, a decrease of 2.1 percent from the \$84.9 million paid in 2015.

## Video Gaming 2016

By the close of 2016, video gaming expanded to 5,726 live locations throughout Illinois with a total of 24,840 active VGTs; a figure equivalent to the number of positions at almost 21 casinos. Video gaming in Illinois has proven to be both a regulatory and technical success as well as an important adjunct to State revenues.

The Board continues to receive and review applications for various video gaming licenses. In connection with the applications, the Board's investigators conducted thousands of investigations of individuals and entities.

The success of video gaming has caused local communities that previously had prohibited it to reconsider their earlier bans. According to the Committee on Governmental Forecasting and Accountability (COGFA) 55.2% of the State's population now lives within communities that allow video gaming, up from 26.7% in 2013. By far the largest community that still prohibits video gaming is Chicago, which contains 21.0% of the State's population.

## 2016 Video Gaming Revenues

The 2016 year-end net terminal income was \$1,108,145,508 compared to \$913,604,038 in 2015, an increase of 21.3%. During the past year, there were 5,726 active locations compared to 5,222 in 2015, an increase of 9.7%. There also were 24,840 active video gaming terminals operating in Illinois during 2016 compared to 22,135 in 2015, an increase of 12.2%. At the end of 2016, terminals were averaging \$126.85 per machine per day in revenue compared to \$124.61 in 2015, an increase of 1.8%.

In 2016, the 30% tax imposed on net terminal income totaled \$332,444,064, representing an increase of 21.3% over the \$274,082,757 collected in 2015. Per the Video Gaming Act, five-sixths of this tax is deposited into the State's Capital Projects Fund and the remaining one-sixth is sent to the municipalities where the video gaming terminals are located. In 2016, the state's portion of the net terminal income tax totaled \$277,036,803, compared to \$228,402,370 received in 2015, an increase of 21.3%. The municipalities where the terminals are located received \$55,407,261 compared to \$45,680,387 received in 2015, an increase of 21.3%.

The Board posts monthly revenue figures on its website for both casino and video gambling.

# Glossary of Terms

## **Adjusted Gross Receipts (AGR)**

Gross gaming receipts, less winnings paid to wagerers. Also referred to as casino win.

## **Admissions**

Prior to dockside gambling in June 1999, admissions were the sum of both turnstile count and passengers remaining on board for each subsequent excursion. On June 26, 1999, dock side gambling began in Illinois. On that date the definition of admissions changed to reflect the number of patrons entering the casinos.

## **Education Assistance Fund (EAF)**

A fund of the State of Illinois into which state-retained gaming taxes are deposited.

## **Electronic Gaming Device (EGD)**

A video gaming machine or reel type of machine commonly referred to as a slot machine.

## **EGD Drop**

The total face value of tokens or representations of tokens collected from the drop bucket and U.S. currency collected from the bill validator drop box.

## **EGD Handle**

The total amount wagered on an electronic gaming device.

## **EGD Win Percent**

The percentage of the total EGD handle that is retained as winnings by the casino. (Board rules provide that EGDs must pay out at least 80 percent and no more than 100 percent of amounts wagered in those machines. The amount remaining after these payouts is the casino win and is used to figure the actual electronic gaming device win percentage.)

## **Gaming Positions**

Each riverboat casino is allowed up to 1,200 gaming positions. The formula developed by the Board to figure those positions are:

*Electronic gaming devices* — 90 percent of the total number of devices available for play

*Craps* — 10 positions for each craps table

*Other table games* – 5 positions for each table

*Keno* – 5 gaming positions

## **Slot Machine**

The common phrase to describe an Electronic Gaming Device.

## **Total Table Drop**

The total amount of cash or cash equivalents contained in the drop box for chips purchased at a table game. This does not reflect the total dollars wagered at the gaming tables. Individuals playing table games may be betting with winnings for which there is no accurate means of determining, or accounting for, actual dollars wagered.
